28 April 2020

Advisory Circular

Subject: Submission of Aeroplane Operators' Emission Monitoring Plan (EMP)

In light of ICAO's Carbon Offsetting Requirements Scheme for International Aviation (CORSIA) program, states are obliged to submit the list of aeroplane operator and their verified emission monitoring plan to ICAO by June 2020.

To fulfil this obligation, BCAA had received capacity building workshops since last year involving the airlines' focal persons. In addition, the EU-APP-SA is at full disposal to support Bhutan at any time regarding any issues.

In order to expedite the process, BCAA would like to urge the operator to render full support towards fulfilling these requirements commencing from the submission of required information and the emission monitoring plan based on the resources shared during the trainings.
